MATERIAL SAFETY DATA SHEET

FOCUS BLING

1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product Name Focus Bling
Product Code -
Other Names Alum, Cake Alum
Product Use Water and waste treatment, tanning agent, paper and pulp processing and food additive.
Company Name Focus Products Pty Ltd
Address 35 Moreton St
Heathwood QLD 4110
PO Box 131
Carole Park QLD 4300
Telephone Number 1800 42 55 66
Emergency Telephone 0411 623 619 (A/H)

2. HAZARDS IDENTIFICATION

NON HAZARDOUS SUBSTANCE. NON DANGEROUS GOODS.

Not classified as hazardous according to the criteria of Safe Work Australia.

Hazards -
Risk Phrases -
Safety Phrases S2 – Keep out of reach of children.
S25 - Avoid contacts with eyes.
S39 - Wear eye/face protection.

3. COMPOSITION / INFORMATION ON INGREDIENTS

Ingredient (common name)	CAS Number	Proportion
aluminium sulphate	10043-01-3	100%

4. FIRST AID MEASURES

Inhalation If inhaled, move to fresh air. Seek immediate medical attention.
Ingestion If swallowed rinse mouth thoroughly with water. DO NOT induce vomiting. Never give anything by mouth to an unconscious person. Seek immediate medical attention.
Skin If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water for at least 15 minutes. Seek immediate medical attention.
Eyes If in eyes, hold eyelids apart and flush the eye continuously with running water for at least 15 minutes. Seek immediate medical attention.

MATERIAL SAFETY DATA SHEET

5. FIRE FIGHTING MEASURES

	For major fires call the Fire Brigade. Ensure that an escape path is available from any fire.
Suitable Extinguishing Media	Use equipment / media appropriate to surrounding fire.
Hazardous Combustion Products	Sulfur oxides, hydrolyzes to dilute sulfuric acid.
Firefighting Equipment	Wear ASCC approved self-contained breathing apparatus and full protective clothing.
Unusual Fire or Explosion Hazards	None known.
Hazchem Code	Not allocated.

6. ACCIDENTAL RELEASE

Spills	Wear suitable protective clothing. Avoid dust formation. Carefully vacuum or sweep up spill and place in suitable containers for reuse or disposal.
---------------	---

7. HANDLING AND STORAGE

Handling	Do not breathe mist or vapour at concentrations greater than the exposure limits. Do not get in eyes and avoid contact with skin and clothing. Keep container closed. Use only with adequate ventilation. Wash thoroughly after handling.
Storage	Store in a cool dry place away from structural steel. Keep containers tightly closed. Avoid dust formation.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Standards (Safe Work Australia) Engineering Controls	Threshold Limit Value (TLV) = 2 mg/m ³ as aluminium. Time Weighted Average (TWA) = 2 mg/m ³ as aluminium, soluble salts as Al. Use local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. Controls should be sufficient so that applicable occupational exposure limits are not exceeded.
Respiratory Protection	If engineering controls do not maintain airborne concentrations below recommended exposure limits, use an ASCC approved full face supplied air respirator. See Australian Standards AS/NZS 1715 and 1716 for more information.
Eye Protection	Wear safety glasses with side shields (or goggles) and a face shield.
Skin Protection	Wear protective gloves and protective clothing appropriate for the risk of exposure.
Hygienic Practices	Food, beverages and tobacco products should not be stored or consumed where this material is in use. Provide eyewash fountains and safety showers in close proximity to points of potential exposure.

MATERIAL SAFETY DATA SHEET

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	White lustrous crystals, granules or white powder
Odour	Odourless
Solubility in water	Soluble (280 g/L @ 20°C)
Boiling Point	Not applicable
Melting point	86°C
Vapour Pressure (mm of Hg @ 25°C)	Not applicable
Specific Gravity (water = 1)	1.7
pH	No information available
Flash Point	Not flammable
Flammable Limit – Lower	Not applicable
Flammable Limit – Upper	Not applicable

10. STABILITY AND REACTIVITY

Chemical Stability	Stable under normal circumstances. On contact with moisture is readily hydrolysed to sulphuric acid. Corrosive to metals in the presence of moisture.
Incompatible Materials	Strong oxidizing agents.
Hazardous Decomposition Products	Sulfur oxides, hydrolyzes to dilute sulfuric acid.
Hazardous Polymerization Conditions to Avoid	Will not occur. Moisture.

11. TOXICOLOGICAL INFORMATION

Toxicity	Oral LD ₅₀ > 5000 mg/kg (rat) Oral LD ₅₀ > 5207 mg/kg (mouse)
Routes of Exposure	Inhalation, ingestion, eye and skin
Acute Health Effects	Inhalation: Dust forms sulphuric acid in contact with moisture in air or in tissues; can cause sore throat, coughing and irritation of nose and throat. High concentrations may cause congestion and constriction of airways. Ingestion: May cause abdominal pain, nausea and vomiting. Concentrated solutions (over 200%) can cause burns of the mouth, bleeding stomach, in-coordination, muscle spasms and kidney injury. Eye: Dust can cause irritation and inflammation of the eyes. Concentrated solutions may cause severe eye damage. Skin: Dust and concentrated solutions can cause irritation, especially of open cuts.
Chronic Health Effects	Prolonged exposure can cause irritation and numbing of the fingers. Repeated ingestion may cause phosphate deficiency, which can weaken bones. Ingested material is not easily absorbed. It reacts with phosphate, forming an insoluble compound, which is readily passed out of the body. Inhaled dust must accumulate in the lungs until slowly

MATERIAL SAFETY DATA SHEET

Existing Conditions cleared.
Aggravated by Exposure No information available.
Carcinogenicity Not listed as a carcinogen by ASCC, IARC or NTP.

12. ECOLOGICAL INFORMATION

Ecotoxicity No information available.
Mobility No information available.

13. DISPOSAL CONSIDERATIONS

Disposal methods and containers Dispose according to applicable local and state government regulations.
Special precautions for landfill or incineration Please consult your state Land Waste Management Authority for more information

14. TRANSPORT INFORMATION

Not classified as a dangerous good according to the Australian Code for the Transport of Dangerous goods by road or rail.

UN Number Not applicable
Proper Shipping Name Not applicable
Dangerous Goods Class Not applicable
Hazchem Code Not applicable
Packing Group Not applicable
Special Precautions Not applicable

15. REGULATORY INFORMATION

Aluminium sulphate is listed in the Australian Inventory of Chemical Substances (AICS).

16. OTHER INFORMATION

Last Revision of MSDS Rev 1.0 (25/03/2011)
